EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Shelly Fussey on September 16, 2005.

The application has been amended as follows:

In claim 10, change the dependency from claim 1 to claim 52.

The following is an examiner's statement of reasons for allowance: the prior art does not teach combination of a targeting agent-therapeutic agent construct comprising at least a first therapeutic agent attached to a first targeting agent that binds to phosphatidylethanolamines expressed on the luminal surface of blood vessels of a vascularized tumor.

All rejections of record are accordingly withdrawn. Examiner also finds that Applicant has complied with the written description requirement. The instant specification and the state of art provide adequate account of antibodies that binds to phosphatidylethanolamines (PE). Specification on pages 4-35, 67-76, 89-117, 122-123, 146-151, 190-203 describes such antibodies. The state of art also describes preparation of antibodies directed to PE. See cited references C17, C27, C29. Applicant has submitted evidence and declaration on record that during the prosecution of the parent

case, which led to US Patent 6,818,21, data were submitted to show tumor treatment in vivo using a targeting agent-therapeutic agent construct in which the targeting agent is a binding protein. See specifically declaration by Thorpe, Ran and Brekken filed on January 14, 2005.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shahnam Sharareh whose telephone number is 571-272-0630. The examiner can normally be reached on 8:30 am - 6:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Sreenivasan Padmanabhan, PhD can be reached on 571-272-0629. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
